## By size by supplier in Q1'06:

Summary...

- Sharp led this category with an 85% share as 14" volumes decline from AUO and Quanta. • 10"-14":
- LPL remained #1 in this category with a 25% share, down from 28%. Samsung remained #2 with AUO rising from #5 to #3 • 15"-19":
- LPL remained #1 with a 28% share followed by AUO who retained their positions on 24% and 22% shares respectively. • 20"-21":
- Samsung continued to dominate this segment earning a 50% share, down from 57%. LPL remained #2 at 23% with Quanta overtaking CMO for #3 • 22"-24":
  - CMO continued to lead this category with Samsung remaining #2, edging LPL. • 25"-29":
- CMO overtook Samsung on 34% Q/Q growth to earn a 26% share. Samsung fell to #2 while AUO rose from #5 to #3 with LPL remaining #4 and Sharp falling from #3 to #5.
- maintaining the #2 position. AUO remained #3 with its share rising from 10% to LPL remained dominant with a 47% share, down from 56%, with Sharp 22% on 187% Q/Q growth.
- Samsung remained dominant with a 74% share, down from 78%. LPL's share rose from 20% to 24% on 42% growth. • 40"-42":
- Samsung overtook Sharp on 150% growth boosting its share from 33% to 53%. Sharp fell to #2 on flat results. LPL was #3 at 7%. • 45"-47"
- Sharp led with a 63% share with Samsung at 25% and LPL at 13%. 55"-59"
  - Sharp was the only supplier in this category. .+..09

## Q2'06 Global TV Shipment

# LCD TV Panel Shipment by Display Area and Market Share by Supplier

- On an area basis, Samsung remained #1 in Q1'06 on its success at 40" although its share advantage narrowed from 3.7% to 1.5%.
- AUO+Quanta would be #3 on an area basis in Q1'06.
- The top 5 suppliers account for a 92% share with the top 6 at 96%.

## FPD PRODUCER PROFILE REPORT

2002

PART II

## 9.4 Chi Mei Optoelectronics (CMO)

## History

Chi Mei Corp. was established in 1959. It was Taiwan's first manufacturer of acrylic sheets and is the world's leading supplier of ABS plastics for PCs. It is also the largest member of the \$2 billion Chi Mei Group, which now includes 12 companies. Chi Mei chose to enter the display manufacturing business through the formation of Chi Mei Electronics (CME) in December of 1997, and Chi Mei Optoelectronics (CMO) in May of 1998. CME was focused on color filter manufacturing for STN and TFT LCDs, primarily targeting the domestic market. However, Chi Mei decided to merge the two companies under the CMO name in April of 2000 in order to better leverage resources.

CMO sampled its first panels in October of 1999 and began mass production in December on its 620 × 750mm substrate line. Its second fab came online in Q3'01. CMO secured enough space in Tainan for up to three more TFT LCD fabs, which it plans to begin operating in Q4'03, 2005, and 2007, respectively, advancing its goal to become a major player in the TFT LCD market. CMO acquired TFT LCD expertise from ITRI, through key hires, through its Japanese consultant, and through a foundry agreement with Fujitsu. In June of 2001, CMO and IBM announced an agreement to form a new company in Japan that includes IBM's TFT LCD development and manufacturing operations and ownership of what is left of DTI. CMO will have an 85% stake in International Display Technology (IDTech), the new company formed in Japan consisting of the former DTI Yasu fab, with IBM Japan owning the remaining 15%.

The new company officially began operations on October 1. With Chi Mei having no direct sales presence in the US and only a small presence in Japan despite its success to date there, the merger positions Chi Mei to win more U.S. and Japanese business by leveraging IBM's relationships. It will also allow Chi Mei to differentiate itself from its Taiwan competitors in the notebook PC market through high resolution and wide viewing angle capability. In addition, it gives Chi Mei an opportunity to compete in the large-area high resolution LCD monitor module market, which has been a significant focus for IBM. It is likely that the IBM sales force will at some point begin selling panels produced by Chi Mei, resulting in broader distribution for Chi Mei. The acquisition also gives Chi Mei access to IBM's TFT LCD expertise gathered from over 12 years of mass production. IBM's know-how will facilitate Chi Mei's efforts in establishing itself as a low cost leader in a commodity market as well as provide it with the technology to differentiate itself in high-end areas.

IBM began performing LCD-related R&D in 1980 and started working with Toshiba on TFT LCD R&D in 1986. In 1989, the two companies formed a manufacturing joint venture called Display Technology Inc. (DTI) with \$167 million in capital. At DTI, the output was shared while each company provided its own device technology. DTI's first fab began operation at Toshiba's Himeji facility in May of 1991 and featured 300 × 400 mm substrates. A second line with 370 × 470 mm substrates began operation in June of 1996. At the end of 1995, the companies jointly began operating a third line at IBM's Yasu factory with 550 × 650mm substrates. IBM also began licensing its TFT technology. It

FPD Producer Profile Report

licensed its a-Si TFT technology to Taiwan's Acer Display in March of 1998 and, in September of 1998, announced that IBM and Toshiba together would license their technology and sell-some of their first generation equipment at Himeji to China's Jilin Electronics. IBM and Toshiba announced the dissolution of their partnership in DTI in May 2001.

## Organization

CMO is a Chi Mei Group company. Its president is Chi Mei Corp. Vice Chairman Mr. Liao. Other Chi Mei companies include Chi Mei Corp, Chi Mei Trading, Shinko Trading, Chi Mei Frozen Foods, Chi Lin Plastic, Arch Technology, Chi Mei Development Culture, Chi Mei Hospital, Chi Mei Culture Foundation and Polychemical Engineering. CMO has \$340 million in capital. Shareholders include Chi Mei Corp., Mitsubishi Chemical (a long time partner), TF Techno (a Japanese technical consulting firm) and CMO employees.

## Products

CMO produces TFT LCDs for notebook and desktop applications, as well as color filters for TFT LCD and STN LCDs. The Chi Mei group produces a variety of plastic materials as well as other kinds of chemicals. It is also in the hospital, frozen food, engineering, storage and import/export industries, and operates one of Taiwan's most famous cultural museums in Tainan province. It also has one subsidiary producing driver ICs, Himax Optoelectronics, and another building LCD monitors.

## Financial Performance

TFT LCD revenues are shown separately for CMO and IBM and then combined for 2002. Growth in 2002 is compared with CMO and IBM/IDTech's combined 2001 revenues. CMO's color filter revenues, believed to be small, are excluded. As indicated, CMO's revenues rose 74% in 2001 to \$578 million and CMO's and IDTech's combined 2002 revenues are expected to rise 90% to \$2.14 billion. CMO saw a \$118 million loss in 2001 due to lower prices and utilization, but is expected to earn over \$300 million in profit in 2002 as prices and utilization rebound. It expects to be listed on the Taiwan Stock Exchange in late July 2002. To pay for the IDTech acquisition, it raised NT\$ 3.2 billion through the issuing of 78 million shares of preferred stock and took out a loan for NT\$ 6 billion. To

raise financing for its 5<sup>th</sup> gen fab, it will issue GDRs for 600 million shares worth NT\$ 30 billion in the second half of 2002.

## Target Markets

Both CMO and IDTech have been 100% focused on large-area markets to date as shown in the following table. Their combined large-area units and revenues have increasingly shifted to LCD monitors each year with the product expected to account for 58% of units and 64% of revenues in 2002. In 2002, the company is boosting production of 15", 17" and 19" LCD monitor modules and expects to ship 100% of its 17" modules with MVA in 2003. In the case of notebook modules, both CMO and IDTech are producing 14.1" XGA with IDTech also producing a growing number of 15" SXGA+ and UXGA modules while 12.1" XGA remains flat at around 25 K per month.

## THE DISPLAYSEARCH MONITOR

Table 26 gives the price ranges for the eight LTPS TFT LCD PDA models categorized in June. As indicated in Table 26, two were under \$200, five were in the \$201–\$300 range, four were in the \$401–\$500 band, and one was above \$600. The most expensive PDA in June was the Sony CLIE PEG-NZ90, featuring a 3.8" 320 × 480 LTPS TFT LCD, priced at \$619.

## Desktop Monitor Shipments Fall in Q1'03; LCD Monitors Rise to a 37% Share

## By Ross Young

As revealed in our latest <u>Quarterly Desktop Monitor Shipment and Forecast Report</u>, desktop monitor shipments fell 12% sequentially (Q/Q) and 1% year-over-year (Y/Y) in Q1'03 to 28.6 million units. All regions declined sequentially with only Europe and rest of world (ROW) growing on a Y/Y basis. In Q2'03, we expect shipments to rise 4% Q/Q and 11% Y/Y to 29.6 million units. Regionally, North America and ROW are expected to be up Q/Q with Europe and ROW expected to rise on a Y/Y basis. North America, Europe, and ROW all had a 31% share in Q1'03. In Q2'03, ROW is expected to enjoy a 33% to 32% advantage over North America. Desktop monitor revenues fell 8% Q/Q and 1% Y/Y to \$8.93 billion with ASPs up 5% Q/Q and flat Y/Y at \$312 due to increased LCD monitor penetration. In Q2'03, desktop monitor revenues are expected to rise 5% Y/Y but fall 4% Q/Q with ASPs down 8% Q/Q and 6% Y/Y to \$288, a record low as shown in Figure 6. It is interesting to note that despite substantial changes in technology and size, ASPs have been relatively flat over the past two years. The record low is being achieved due to price reductions at all sizes, a slower increase in LCD monitor growth, and slower increases at larger LCD monitor sizes due to supply constraints. By supplier, Samsung was the top desktop monitor supplier with a slight 13.5% to 13.4% advantage over Dell with both suppliers gaining share from 12.9% and 12.1% respectively in Q4'02. HP remained #3 in total desktop monitor shipments with its share rising from 7.2% to 8.5%.

## THE DISPLAYSEARCH MONITOR

- Chi Mei Optoelectronics (CMO), excluding IDTech, remained #4 on flat unit growth with shipments remaining at 580K units and its share falling from 9.9% to 9.7%. Its shipments were led by notebooks up 20% with LCD monitors/Other down 3%. It initiated LCD TV production in May at 2K units. It remained #4 in LCD monitor module production. CMO is also shipping small/medium panels on an OEM basis to Optrex for cameras and Innolux for mobile phones. Small/medium cell production reached 280K units in May. Revenues rose 1% to \$117 million as its share fell from 9.2% to 8.8%.
- CPT earned the highest unit growth in May after declining in April. Although it is still in the early stage of ramping its new 4<sup>th</sup> gen fab, shipments rose 9% to 485K units and an 8.1% share. Its growth was led by notebooks, up 22%, with LCD monitors/Other up 8%. Its revenues also rose the fastest of any supplier up 13% to \$70 million and a 5.3% share, up from 4.9%.
- HannStar's unit shipments fell 1% to 420K units, but revenues rose 1% to \$81 million. Its unit growth was led by notebooks up 53%, while LCD monitors/Other fell 15%. The notebook share of its large-area shipments rose from 20% to 31% as it boosted 15" shipments.
- Quanta Display Inc. (QDI) boosted shipments by 3% in May to 305K units and a 5.1% share. Its growth was led by LCD monitors/Other, which rose 8% while notebooks fell 1%. The LCD monitor share of its total output rose from 41% to 43%.
- BOE-Hydis' shipments fell 2% in May to 253K units with its share falling from 4.4% to 4.2%. Its LCD monitor/Other shipments rose 4% with notebooks down 17%. LCD monitors rose from 71% to 75% of its total large-area shipments. BOE-Hydis also began small/medium production in May for car nav./rear seat entertainment, which reached 2K units. Its total revenues rose 4% to \$59 million and a 4.5% share.

## NOTICE OF SERVICE ON DEFENANT CHI MEI OPTOELECTRONICS CORPORATION PURSUANT TO 10 DEL.C.§3104

Plaintiff L.G. Philips LCD Co., Ltd. ("LG. Philips") hereby provides notice pursuant to 10 Del.C.§3104 as follows:

Defendant Chi Mei Optoelectronics ("Chi Mei") is a Taiwanese Corporation with its principal place of business located at 2F, No. 1, Chi –Yeh Road, Tainan Science Based Industrial Park, Hsinshih Hsiang, Tainan Hsien 710, TAIWAN 74147, ROC.

On February 16, 2007, we caused to be mailed to Chi Mei Optoelectronics, by registered mail, return receipt requested, a notice letter, a copy of which is attached hereto as Exhibit A, and made a part hereof, together with copies of the Summons and the Complaint for Patent Infringement and Demand for Trial by Jury as served upon the Secretary of State of Delaware.

The Summons together with the Return of Service is attached hereto, and made a part hereof as

Exhibit B. The notice letter and copies of the complaint were contained in the same envelope at the time of its mailing on February 16, 2007.

Attached hereto and made a part hereof as Exhibits C is the usual receipts given by the United States Post Office at the time of mailing to Chi Mei Optoelectronics on February 16, 2007, of the registered letter containing the Summons and Complaint.

## Ladies and Gentlemen:

In accordance with the provisions of 10 Del. C. § 3104, we enclose copies of the Summons and the Complaint for Patent Infringement and Demand for Jury Trial served upon Chi Mei Optoelectronics Corporation by serving the Secretary of State of Delaware. Such service was made on February 15, 2007.

Under the provisions of 10 Del. C. § 3104, service of summons and the complaint upon the Secretary of State of Delaware is as effectual to all intents and purposes as if it had been made upon you personally within the State of Delaware.

We suggest you deliver these papers immediately to your attorney.

Very truly yours,

Richard D. Kirk

## EXHIBIT 51

## **Preface**

The Statistical Abstract of the United States, published since 1878, is the standard summary of statistics on the social, political, and economic organization of the United States. It is designed to serve as a convenient volume for statistical reference and as a guide to other statistical publications and sources. The latter function is served by the introductory text to each section, the source note appearing below each table, and Appendix I, which comprises the Guide to Sources of Statistics, the Guide to State Statistical Abstracts, and the Guide to Foreign Statistical Abstracts.

This volume includes a selection of data from many statistical sources, both government and private. Publications cited as sources usually contain additional statistical detail and more comprehensive discussions of definitions and concepts. Data not available in publications issued by the contributing agency but obtained from the Internet or unpublished records are identified in the source notes. More information on the subjects covered in the tables so noted may generally be obtained from the source.

Except as indicated, figures are for the United States as presently constituted. Although emphasis in the Statistical Abstract is primarily given to national data, many tables present data for regions and individual states and a smaller number for metropolitan areas and cities. Appendix II, Metropolitan and Micropolitan Statistical Areas: Concepts, Components, and Population, presents explanatory text, a complete current listing and population data for metropolitan and micropolitan areas defined as of December 2005. Statistics for the Commonwealth of Puerto Rico and for island areas of the United States are included in many state tables and are supplemented by information in Section 29. Additional information for states, cities, counties, metropolitan areas, and other small units, as well as more historical data are available in various supplements to the Abstract (see inside back cover).

Statistics in this edition are generally for the most recent year or period available by summer 2006. Each year over 1,400 tables and charts are reviewed and evaluated; new tables and charts of current interest are added, continuing series are updated, and less timely data are condensed or eliminated. Text notes and appendices are revised as appropriate. In addition, two special features—Mini Historical Statistics, and State Rankings—can be found on our Web site: <a href="http://www.census.gov/compendia/statab/">http://www.census.gov/compendia/statab/</a>>.

Changes in this edition—This year we have introduced 72 new tables covering a wide range of subject areas. These cover a variety of topics including: learning disability for children, people impacted by the hurricanes in the Gulf Coast area, employees with alternative work arrangements, adult computer and Internet users by selected characteristics, North America cruise industry, women- and minority-owned businesses, and the percentage of the adult population considered to be obese by country. For a complete list of new tables, see section titled "New Tables," p. xi.

In addition to the above new tables, there are other changes to note for this edition. The title for Section 22, "Domestic Trade" has been changed to "Wholesale and Retail Trade." Tables displaying Service sector and County Business Patterns data have been adjusted using the results of the 2002 Economic Census.

Statistical Abstract on other media— The Abstract is available on the Internet and on CD-ROM. Both versions contain the same material as the book, except for a few copyrighted tables for which we did not receive permission to release in these formats. Our Internet site <a href="http://www.ntp://ww.ntp://ww.ntp://www.ntp://www.ntp://ww.ntp://ww.ntp://ww.ntp: .census.gov/compendia/statab/> contains this 2007 edition plus selected earlier editions in Adobe Acrobat .pdf format. The CD-ROM version and Internet site also include spreadsheet files for each table in the book.

Statistics for states and metropolitan areas-Extensive data for the states and metropolitan areas of the United States can be found in the State and Metropolitan Area Data Book: 2006. This publication minus some data items, as well as selected rankings of the states and metropolitan areas, is available on our Internet site at <a href="http://www.census.gov">http://www.census.gov</a> /compendia/smadb>.

## Statistics for counties and cities-

Extensive data for counties can be found in the County and City Data Book: 2000. It features 191 data items covering everything from age and agriculture to water use and wholesale trade for all states and counties with U.S. totals for comparison. Also included are 103 data items for cities with population of 25,000 or more. The primary sources are Census 2000 and the 1997 Economic Census. Two tables present 11 data items from Census 2000 for all places and minor civil divisions with a population of 2,500 or more.

This publication, as well as selected rankings, is available on our Internet site at <a href="http://www.census.gov/statab/www">http://www.census.gov/statab/www</a> /ccdb.html>. Some data items that appear in the book from private sources are not

available on the Internet or CD-ROM versions because we did not receive copyright permission to release the data items in these formats. For a database with over 5,000 county items, check out USA Counties at <a href="http://censtats.census.gov/usa">http://censtats.census.gov/usa</a> /usa.shtml>.

Limitations of the data—The contents of this volume were taken from many sources. All data from censuses and surveys or from administrative records are subject to error arising from a number of factors: Sampling variability (for statistics based on samples), reporting errors in the data for individual units, incomplete coverage, nonresponse, imputations, and processing error. (See also Appendix III, p. 914.) The Census Bureau cannot accept the responsibility for the accuracy or limitations of the data presented here, other than those for which it collects. The responsibility for selection of the material and for proper presentation, however, rests with the Census Bureau.

For additional information on data presented-Please consult the source publications available in local libraries or write to the agency indicated in the source notes. Write to the Census Bureau only if it is cited as the source.

Suggestions and comments-Users of the Statistical Abstract and its supplements (see inside back cover) are urged to make their data needs known for consideration in planning future editions. Suggestions and comments for improving coverage and presentation of data should be sent to the Director, U.S. Census Bureau, Washington, DC 20233.
